

# Project Notes and Code

Leann M. Biancani

2024-03-26

## Links

- Paper: CHiLS: Zero-Shot Image Classification with Hierarchical Label Sets
- Poster: ICML 2023
- Code: GitHub - CHiLS

## Recreating the paper results

### 0. Clone Repository

```
#git clone https://github.com/acmi-lab/CHiLS
```

1. Setting up the environment and datasets
2. Caching the CLIP-extracted features for each dataset and model
3. Running zero-shot inference
